

CORPORATE PRESENTATION / 2026

From origin. To opportunity.

Traceable spices and botanical ingredients for global buyers.

Nicaragua / Honduras / Central America

FARM / PROCESSING / EXPORT

A supply partner built at origin.

Doselva is a B2B producer, processor, and exporter of spices and botanical ingredients with operations in Nicaragua and Honduras. We combine responsible sourcing, in-house processing, quality controls, and export coordination for professional buyers.

Founded in 2017 to diversify smallholder coffee farmers' incomes through shade-grown spice cultivation, the company expanded its processing footprint to Santa Bárbara, Honduras, in 2023.

Powder

MOQ 3 MT

Product formats and minimum order quantities are from the client brief. Organic status and certification scope are confirmed per product and shipment.

More than a product. An integrated supply approach.

Commercial and operational services designed around buyer specifications, product quality, and export needs.

01

Bulk botanical supply

B2B sourcing of ginger, turmeric, cardamom, and allspice from Nicaragua and Honduras.

02

Custom processing & steam treatment

In-house product formats and steam treatment services at the Granada operation.

03

Quality & traceability

Producer coding, processing checks, product samples, technical sheets, and COAs.

04

Export logistics & buyer support

Shipment coordination, commercial documentation, and air or sea freight options.

FROM THE SOURCE

Every lot
has a story.

04 / HOW WE WORK

Traceability from farm to export.

Producer identifiers and field records support traceability as ingredients move through reception, processing, quality checks, and export.

01

Responsible sourcing

Producer screening, field training, and support.

02

Controlled processing

Receipt, weighing, selection, drying, and sizing.

03

Quality verification

Process monitoring and technical documentation.

04

Export preparation

Packing, storage, documents, and coordination.

Rooted in people. Present at origin.

REGENERATIVE AGRICULTURE / SMALLHOLDER PARTNERSHIPS

500+

SMALLHOLDER FARMERS

Technical guidance, shade-grown systems, and quality-based incentives are part of the company's social commitments.

NICARAGUA / GRANADA

Headquarters & processing

Ginger and turmeric processing, plus an in-house steam treatment service center.

HONDURAS / SANTA BÁRBARA

Processing & sourcing

Dedicated processing base for cardamom and allspice, supporting the regional producer network.

Confidence comes from documented standards.

Doselva provides applicable certificates, technical specifications, and certificates of analysis for buyer review. Certification coverage differs by product and operation.
